

The Anchor-Audio AN-1001X is a 2-way, magnetically shielded, passive PA speaker. As a companion speaker for that company's AN-1000 powered system, it features a durable, injection-molded enclosure, high output, and a lightweight construction for easy transportation. This speaker is an inexpensive, well-crafted solution for use in video, computer and multimedia presentations and installations.

#### Key Features

- Passive, lightweight portable PA companion speaker
- Magnetically shielded for close proximity use with video and computer monitors
- Durable, injection-molded enclosure
- Metal grille woofer speaker cover
